Social impact assessment study report

1.0 Introduction

In the Union Territory of Daman, Devka Beach, Airport Road and Daman's main Coastal Highway are connected by an Other District Road (ODR). The Coastal Highway connects Daman to Gujarat state. The loads of tourists and vehicles of industrial units coming from Gujarat state is increasing every year.

At present, the work of widening and streamlining the part of ODR passing through Bhimpore village is undertaken by the Public Works Department. A survey number 301/1 is affected by acquisition and a two story building and trees were affected due to acquisition. And, it has been decided to acquire private (non-agricultural) land of survey No. 301/1 of Bhimpore village to widen and increase the safety and orderliness of the road by Public Work Department (PWD).

Affected land owner has already submitted consent for land acquisition and Public Work Department has already demolished the property situated on land and at present PWD has levelled the land to widen the road in the project area.

The Collectorate, Union Territory of Daman and Diu has proposed to acquire land for road widening at Bhimpore village, Nani Daman under the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement (RFCTLARR) Act, 2013. Thus, the Collectorate, Union Territory of Daman and Diu vide notification: NO. 2/COL/ LND / SIA/ 122/ Vol-I/ 2021/472 dated 16-02-2022 has appointed Gujarat Environment Management Institute (GEMI) to conduct a Social Impact Assessment (SIA) study for the land proposed for acquisition under the RFCTLARR Act 2013 (**Annex-1**).

2.0 Land and size of land acquisition

Social Impact assessment team has carried out personal survey of affected land owner and according to the information obtained by the land owner, total land area of 300 sq.m. of survey number 301/1 is proposed to be acquired. The affected landowner has another land in same locality hence he will not become landless. Total 06 families will be affected due to land acquisition. The detailed information of affected families is given in point 13.0 of this report.

3.0 Reason for land acquisition

The Public Works Department is widening the ODR passing through Bhimpore village.

In which the Survey No. 301/1 is a triangular section between the other district road and the coastal highway. And it was decided by PWD to acquire the land of 301/1 to widen the road to increase the safety and beautification of road.

In addition, affected land owner has already submitted the consent for land acquisition dated 07-06-2021. Then, the structures on affected land were demolished and ground was levelled by PWD and currently construction of road is underway.

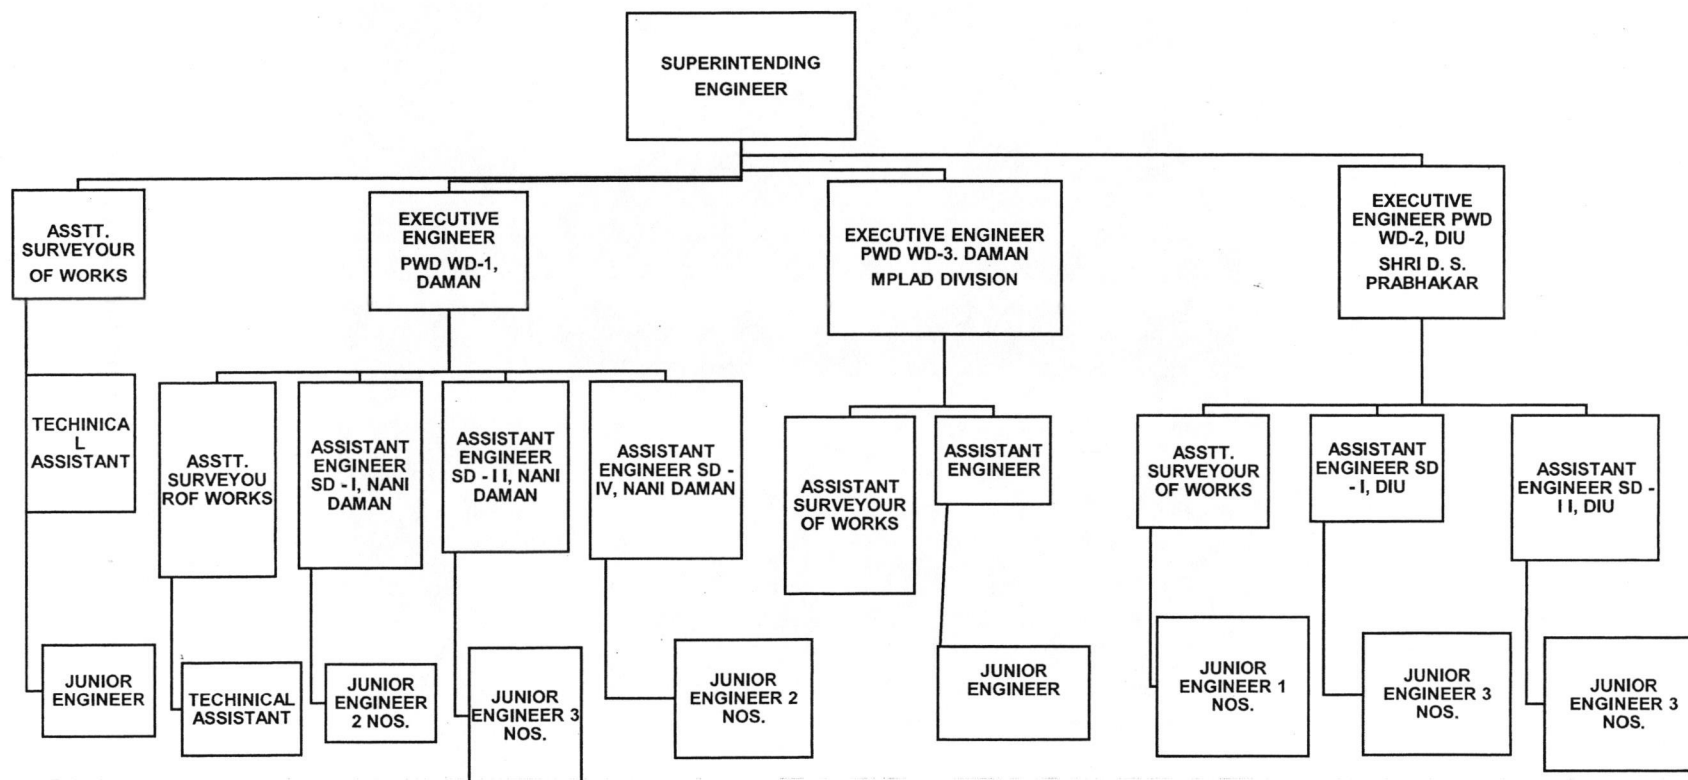

The consent letter regarding the acquisition of this land by the affected land owner was submitted to the Daman Collector's Office on dt. 08-08-2021 i.e. in advance. According to the sixth sub section of sub-section 1 (b) of Section 2 of the RFCTLARR Act 2013, since this project is meant to create transportation related facilities, it is for public purpose.

4.0 Background of Public Work Department

The Public Works Department, Daman performs in accordance with the provisions of the CPWD Manuals and other related laws under the Central Public Works Department's Policy Rules. Responsible for the preparation, planning, design and execution of tenders, construction of works and maintenance of repairs; with the construction, survey, planning, designing and elaborate maps of the Daman area projects. This operation has to be done for the government housing and other government buildings for the main roads in the district. Apart from this, all the activities of water supply and flood control of the entire area are managed by the Public Works Daman.

Union Territory Daman and other departments such as Animal Husbandry Department, Fisheries Department, Electricity Department, Ports and Harbour, Sports and Culture Department, Medical and Public Health Department and Home Department, which submits its construction work to the Public Works Department, the Public Works Department has to perform this operation in addition to its own operations. Any Central owned construction work in Union territory is under the control of public works Department. Manages bridges, public roads and water supply so that the public can get access to the facilities. The structure of the Public Works Department is shown in Figure 1

Figure1 Management Structure of PWD

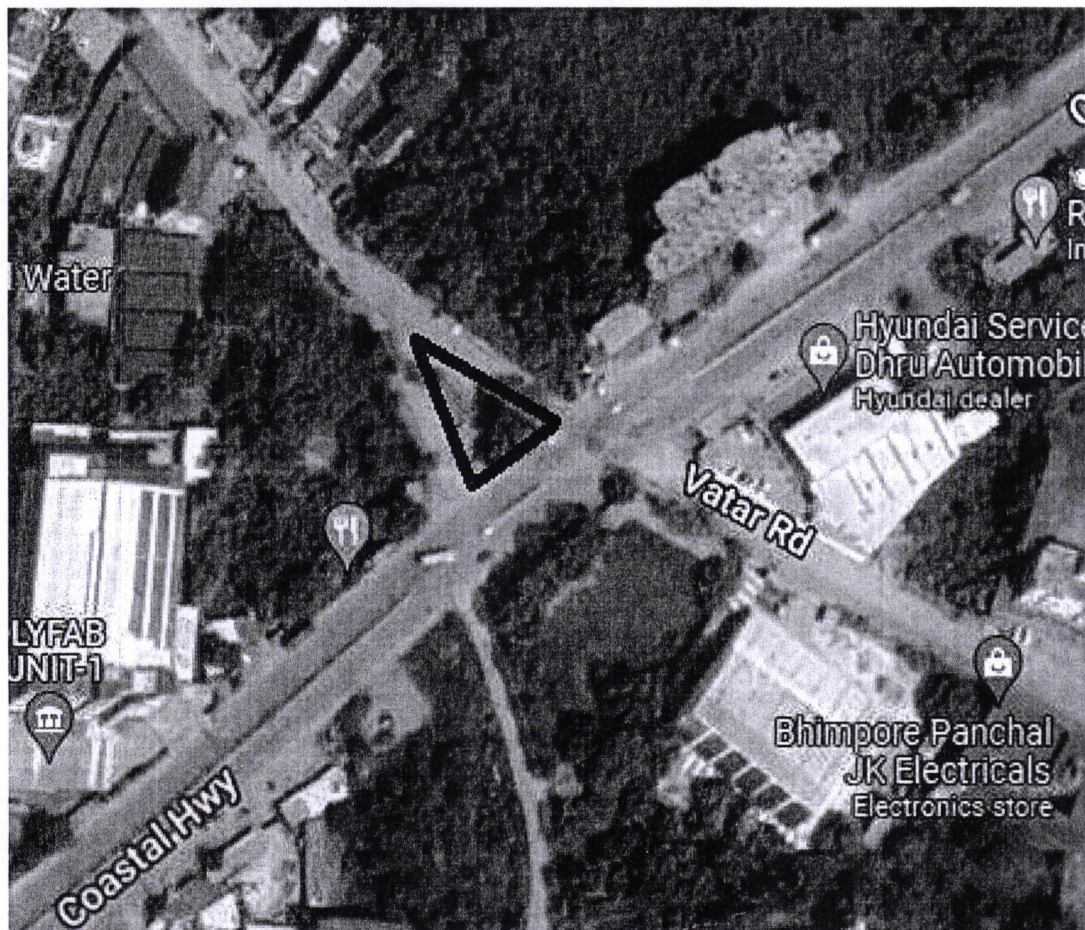

5.0 Examination of alternatives and bare minimum requirement of land

In this study, affected triangular shaped land is surrounded by roads. Photo of the same is provided in Figure 1.1. The main objective of the Public Works Department is to make the road wider by acquiring this triangular section and reduce the possibility of accidents in future.

Current project is to widen the existing road. Hence, there is no question of alternate land option arise. And the certificate of bare minimum requirement of land from project proponent i.e. Public Works Department is included in Annexure-3.

Figure 2: Photo of affected land

The study of the proposed acquisition is of a triangular shaped land on which the road passes on three sides.

Proposed land is located in side of coastal highway and surrounded by other district road both side so it is triangle shape land. And main aim of the acquisition is to acquire the land to widen the road to reduce the probability of accidents.

6.0 Team composition for the SIA study

The Collectorate, Union Territory of Daman wide notification NO. 2/COL/ LND / SIA/ 122/ Vol-I/ 2021/472 dated 16-02-2022 has appointed GEMI to conduct a SIA study for the proposed land acquisition. Details of the SIA team constituted by GEMI are given in Table 1 below:

Table 1 Composition of Social impact assessment team

Sr. No.	Name	Educational Qualifications and Experience	Designation in Social Impact Assessment study team
1.	Ms. Darpana Dhimmar, Social Impact Assessment Expert, GEMI (Retd. Joint Secretary, Forests & Environment Department, Gujarat)	B.A (Economics), LLB Experience of 44 years in various departments of Government of Gujarat such as Women and Child Development, Forests & Environment Dept., Industry and Mining Dept.	Team Leader
2.	Mr. Pratul Ahuja, Socio-economic Expert, GEMI	B Plan (Town Planning) PG Diploma (Urban and Regional Planning) MA (International Relations and Development Studies) Experience of 22 years in different projects related to social impact assessment and environment	Member
3.	Mr. Paresh Chavda, Dy. Env. Engg and Unit Head, GEMI	M. Tech (Environment), Post Diploma (Environmental Policies and Laws), MBA (Environmental Management), BE, Diploma (Chemical Engineer) Experience of 11 years in different projects of Social impacts and environment	Member
4.	Mr. Pushkar Patel, Asst. Env. Engg, GEMI	BE (Environment Engineer) Experience of 5 years in different projects of Social impacts and environment	Member

Note: Other subject experts are also included in the Social Impact Assessment team.

The details of the other members included in the Social Impact Assessment team are shown in **Table 2** below.

Table 2 Details of other members of the Social Impact Assessment team

Sr. No.	Name	Educational Qualifications and Experience	Designation in social impact Assessment study team
1.	Mr. Mayur H. Patel, SIA study Surveyor, GEMI	BRS, MRS with 5 years of experience in various rural development projects as well as social impact and environment	Surveyor
2.	Mr. Sunil Parmar, Social Impact Assessment Study Surveyor, GEMI	BRS with 7 years of work experience in various rural development projects as well as in social impact and environment	Surveyor
3.	Mr. Dinesh Makwana, Social Impact Assessment Study Surveyor, GEMI	Master in social Management 5 years of work experience in various rural development projects as well as in social impact and environment	Surveyor

7.0 Methodology of social impact Assessment study

The details of procedure of social impact assessment is as per below:

First phase

Collection of secondary information and preparation for field survey

- | | |
|---|--|
| <ul style="list-style-type: none">➤ Details about the project including map, reports, documents etc.➤ Review of Land acquisition policy➤ Consultation with concerned departments, Land Acquisition Officer etc. | <ul style="list-style-type: none">➤ Collection of secondary data & maps from government departments➤ Preparation of questionnaires for field survey➤ Training of Field Surveyors |
|---|--|

Second phase

Primary information collection from Project Affected Families (PAFs) & other stakeholders

- | | |
|---|--|
| <ul style="list-style-type: none">➤ Conduct field survey➤ Collection of information from PAFs using structured questionnaires➤ Interviews/discussions to gather views of Sarpanch, village elders, other stakeholders etc.➤ Preparation of Field Operations Report containing details of data collected during survey and likely social impact | <ul style="list-style-type: none">➤ Assessment of livelihood loss and consultation with concerned government departments➤ Review of provisions of RFCTLARR Act 2013 regarding compensation & R&R➤ Meeting with concerned officer to discuss rehabilitation and resettlement plan |
|---|--|

Third phase

Report preparation & Public hearing

- | | |
|--|---|
| <ul style="list-style-type: none">➤ Analysis of data and information collected through primary survey➤ Finalization of structure of SIA report➤ Preparation of draft SIA report➤ Assistance to concerned government departments for conducting public hearing | <ul style="list-style-type: none">➤ Documentation of comments and objections received on the draft SIA report during public hearing➤ Finalization of SIA report incorporating suggestions received from the public & concerned government departments➤ Submission of final SIA report |
|--|---|

8.0 Approach of SIA

The main elements of the approach adopted for SIA are outlined below:

- Identification of socio-economic impact of the project
- Counseling with local communities
- Legal framework and compensation for land acquisition
- Management and responsibility allocation
- Implementation schedule
- Budget for detailed social impact assessment
- List of affected families and individuals

For the purposes of the SIA, information was collected using secondary as well as primary sources by the SIA team. A comprehensive socio-economic survey of persons/families affected by the project was carried out using a structured questionnaire (refer Annexure-2) to assess their socio-economic status, nature of employment, extent of loss of livelihood and assets as well as to prepare a list of affected properties.

All the information obtained through personal interview is as shown **in Annexure-2** of the prescribed survey form.

9.0 Source of information for SIA

The SIA report has been prepared by the team using various sources of information as below:

A. Information from secondary sources

Secondary information on the following was collected from government sources:

- Details of land-owner such as form number-1/14, details of occupancy, loan outstanding (if any), land title as per Form number-1/14 and details of use of land.
- Information obtained through consultation with the authorities of Public Work Department, Daman.

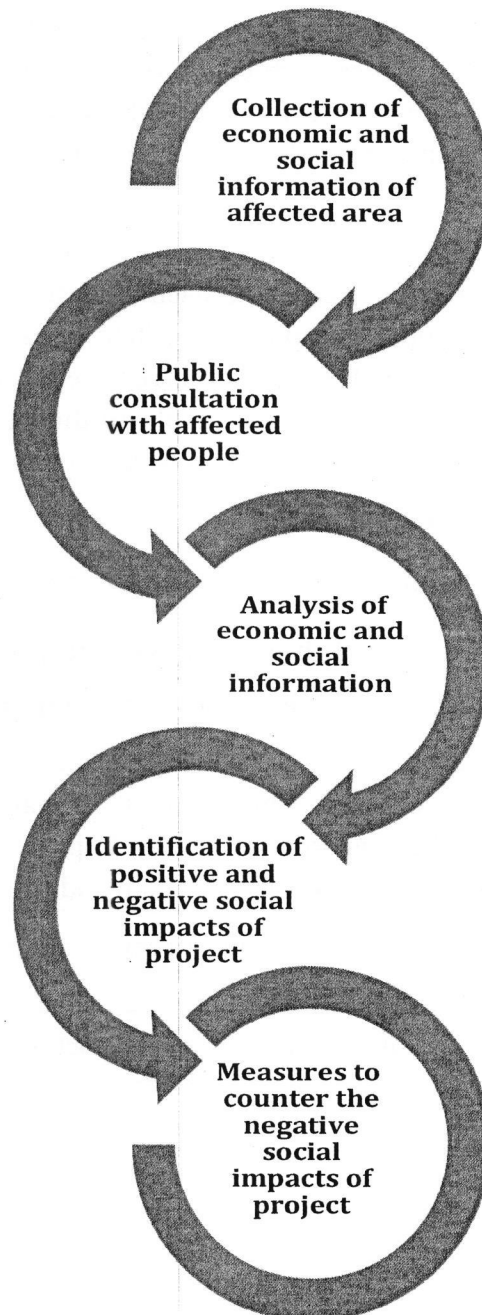

B. Information from primary sources

- Views and opinions of affected landowners
- Project maps and construction details from the Project proponent, PWD, Daman

10.0 Structure for identification of social impact of land acquisition

For identification of social impacts, socio-economic information of the affected area was collected by the SIA team using three separate questionnaire survey forms in the vernacular language. Survey number wise information was collected in Form 1.

Figure 3 Structure for identifying social impact of land acquisition

This included details of the landowner, his/her successor, landowner's relationship with heirs, age of the family members, caste, religion, income, any land property.

attached etc. Form 1 was helpful in identifying and establishing the identity of the affected persons / families / women headed families and vulnerable groups if any.

In Form 2, details of the affected land were collected, such as the use of this land, property existing on the land viz. building, shop, standing crops, trees etc. Form 3 captured information about the social and economic impact on affected persons and whether or not they would like to give away their land. Each affected person was interviewed personally during the survey by GEMI's SIA team and every effort was made to contact all affected landowners. A signed undertaking was also taken from the affected persons as to the correctness of the information provided. Apart from the above primary information, basic details of the village such as education, health, transport and communication etc. were taken from the latest census data (Census 2011).

After data collection, all the information was computerized and analyzed for preparing the SIA report. Time limits to carry out each of these tasks were strictly adhered to by the SIA Team. The probable impacts identified by GEMI were discussed during the public hearing and comments/suggestions received were incorporated in the final SIA report. The SIA Reports were made available for the website of the Collector of Daman and Diu, and in hard copy in the office of the Collector.

11.0 Schedule of SIA study

The following are the main aspects of the timetable for conducting the SIA study.

Table 3 Stages of the study

Sr. No.	Date	Stages of the Social Impact Assessment Study
1.	16-02-2022	Gujarat Environment Management Institute (GEMI) designated as Social Impact Assessment team by the Collector Office, Daman and Diu (U.T.)
2.	21-02-2022	Socio-economic survey of affected families and survey of land & property
3.	19-03-2022	Submission of Social Impact Assessment Report

12.0 Information about the property of the land owner on the proposed land

According to the land records of the Bhimpore Village, survey number 301/1 is own by Mr Khalpa Bhavla Patel. At present, PWD has levelled the proposed land and road widening work is underway. According to the information received during the survey of the affected owner, a two-storey building with 4 shops at ground floor and 5 rooms on rent at upstairs and four 30-year-old Mango trees and a Shame plant was exist. Photo of affected property was provided by Public word department is as per figure 4.

Figure-4 Affected properties

13.0 Details of the affected family and its members

Information about the family affected by the land acquisition for this project has been collected by the social impact Assessment team through a face-to-face interview of the affected family. Details information is given below in **table 4**.

Table 4 Details information of Affected families

	Name	Male/ Female	Marital status	Relationship with land owner	Age	Education	Occupation
301/1	Shri Khalpa Bhavala Patel	M	Marred	Self	82	Secondary	Retired (Agriculture)
	Mrs. Kankuben Khalpa Patel	F	Marred	Wife	78	Illiterate	Housewife
	Shri Rajesh Khalpa Patel	M	Marred	Son	51	Higher secondary	General store
	Mrs. Anilaben Rajesh Patel	F	Marred	Daughter in law	48	Graduate	Housewife
	Shri Trupal Rajesh Patel	M	Unmarried	Grand son	26	Master	Job
	Shri Hem Rajesh Patel	M	Unmarried	Grand son	22	Graduate	Study
	Shri Jitendra Khalpa Patel	M	Marred	Son	47	Graduate	Construction
	Mrs. Rinaben Jitendra Patel	F	Marred	Daughter in law	45	Higher secondary	Housewife
	Kumari Diya Jitendra Patel	F	Unmarried	Grand Daughter	18	Graduate	Study
	Kumari Siva Jitendra Patel	F	Unmarried	Grand Daughter	15	Secondary	Study
	Shri Kashyap Jitendra Patel	M	Unmarried	Grand son	11	Primary	Study
	Shri Virendra Khalpa Patel	M	Marred	Son	43	Higher secondary	-
	Mrs. Timisha Virendra Patel	F	Marred	Daughter in law	37	Primary	Housewife
	Kumari Siddhi Virendra Patel	F	Unmarried	Grand Daughter	13	Primary	Study
	Shri Monik Virendra Patel	M	Unmarried	Grand son	10	Primary	Study

14.0 Social impact of Land Acquisition

The social impacts of the project are divided into two phases as follows. A consent letter for land acquisition was already submitted in advance by the affected land owner to the Daman Collector's Office. And, PWD has already demolished structure and trees of affected land and leveled the land. Hence, the pre-construction phase was not considered. In addition, impact of the other two phases are as follows:

Table 5 Phase wise Impact of land acquisition

Construction phase	Management phase
Positive effect (Direct impact)	
➤ The income of local traders will increase during construction.	➤ Availability of convenient road and time saving for traffic on Coastal Highway in Daman
Positive effect (Indirect impact)	
	➤ Possibility of employment for local people.
Negative effect (Direct impact)	
➤ There will be traffic problems and temporary inconvenience for locals vehicles to reach their homes.	➤ The project will increase the movement of vehicles which will cause air and noise pollution
Negative effect (Indirect impact)	
➤ Risk of accident during construction.	➤ The risk of an accident due to more vehicles and faster rush hour

15.0 Corrective measures for the negative social impact

In the present acquisition. PWD cut down the trees and levelled the land. Because land owner submitted NOC consent in advance to the Daman Collector's So that the pre-construction phase effect does not appear. Remaining details information of impact and its corrective measures of the project is as follows

Table 6 Correction measures for the Negative impact

Correction measures for the Negative impact			
Construction phase	There will be traffic problems and temporary inconvenience for locals vehicles to reach their homes.	During this phase traffic will have to be diverted and alternative transportation facilities will have to be created	Public Work Department Daman

Construction phase	Risk of accident during construction.	Strict adherence to all safety laws and regulations to reduce the risk of accidents.	Public Work Department Daman
Management phase	Movement and speed of vehicles will increase so that the probability of an accident will increase	Putting traffic light and traffic sign boards on the relevant place	Public Work Department Daman
Management phase	Increase in the movement of vehicles which will cause air and noise pollution	Planting trees in the vicinity should reduce the impact of pollution	Public Work Department Daman

16.0 Recommendation regarding land acquisition

The Union Territory of Daman is connected to Devka Beach, Airport Road and Daman's main Coastal Highway by an Other District Road (ODR). Coastal Highway connects Daman with Gujarat state. And the quantum of tourists and vehicles of industrial units coming from Gujarat is increasing every year. The PWD has decided to widen the road, where the ODR is connecting with coastal highway to increase the safety and orderliness of the road and prevention of future incidents.

Total 300.00 sq.m land has been acquired as per the project proposal which is total land according to land record 1/14 of survey no 301/1. As part of Social impact assessment and recommendation of this acquisition made based on information acquired through face to face interview and analysis of information provided by project developers. In this case the private plot is owned by a single person. The affected owner has already agreed to give his land, copy of consent letter is attached in annexure-4. According to him, the land has been handed over to PWD in June 2021 and the structure and trees have been removed, the same has been confirmed by the Social Impact assessment team during a face-to-face interview and site visit. The photos of affected properties were provided by PWD, which are attached at annexure 5.

Therefore, the only request of the affected Mr. Khalpa Bhavala was that he should be compensated for the land and property at earliest. As per request of land owner, Social Impact Assessment team recommends land acquisition with condition of early payment of compensation as per land acquisition act.

17.0 Social Impact Management plan

In the Union Territory of Daman, Devka Beach, Airport Road and Daman's main Coastal Highway are connected by an Other District Road (ODR). The Coastal Highway connects Daman to Gujarat state. The loads of tourists and vehicles of industrial units coming from Gujarat state is increasing every year. The PWD has decided to widen the junction of ODR, which connects ODR to coastal highway to increase the safety and orderliness of the road and prevention of future incidents.

At present the work of widening and streamlining the part of ODR passing through Bhimpore village is in progress by the Public Works Department. A survey number 301/1 is situated on affected land and a building and trees were affected due to land acquisition. And, it has been decided to acquire private (non-agricultural) land of survey No. 301/1 of Bhimpore village to widen and increase the safety and orderliness of the road.

Public Work Department has already demolished the property situated on land and at present levelling the land to widen the road in the project area.

The Collectorate, Union Territory of Daman and Diu has proposed to acquire land for road widening at Bhimpore village, Nani Daman under the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement (RFCTLARR) Act, 2013.

Thus, the Collectorate, Union Territory of Daman and Diu vide notification: NO. 2/COL/ LND / SIA/ 122/ Vol-I/ 2021/472 dated 16-02-2022 has appointed Gujarat Environment Management Institute (GEMI) to conduct a Social Impact Assessment (SIA) study for the land proposed for acquisition under the RFCTLARR Act 2013 (**Annex-1**).

The Collectorate, Union Territory of Daman and Diu has proposed to acquire land for construction junction nearby costal highway Bhimpore Nani Daman under the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement (RFCTLARR) Act, 2013.

➤ **Corrective measures for the negative social impact**

The social impact of the project is divided into three phases as follows. However, a letter of NOC consent was given in advance by the affected land owner to the Daman Collector's Office. PWD currently cut down the trees and leveled the land. So that the pre-construction phase effect does not appear. In addition, information on the effect of the other two phases follows

Table 7 Correction measures for the Negative impact

Correction measures for the Negative impact			
Construction phase	There will be traffic problems and temporary inconvenience for locals vehicles to reach their homes.	During this phase traffic will have to be diverted and alternative transportation facilities will have to be created	Public Work Department Daman
Construction phase	Risk of accident during construction.	Strict adherence to all safety laws and regulations to reduce the risk of accidents.	Public Work Department Daman
Management phase	Movement and speed of vehicles will increase so that the probability of an accident will increase	Putting speed breakers and traffic sign boards on the nearby junction	Public Work Department Daman
Management phase	Increase in the movement of vehicles which will cause air and noise pollution	Planting trees in the vicinity should reduce the risk of pollution	Public Work Department Daman

17.1 Measures that are included in the terms of Rehabilitation & Resettlement and compensation as outlined in the Act

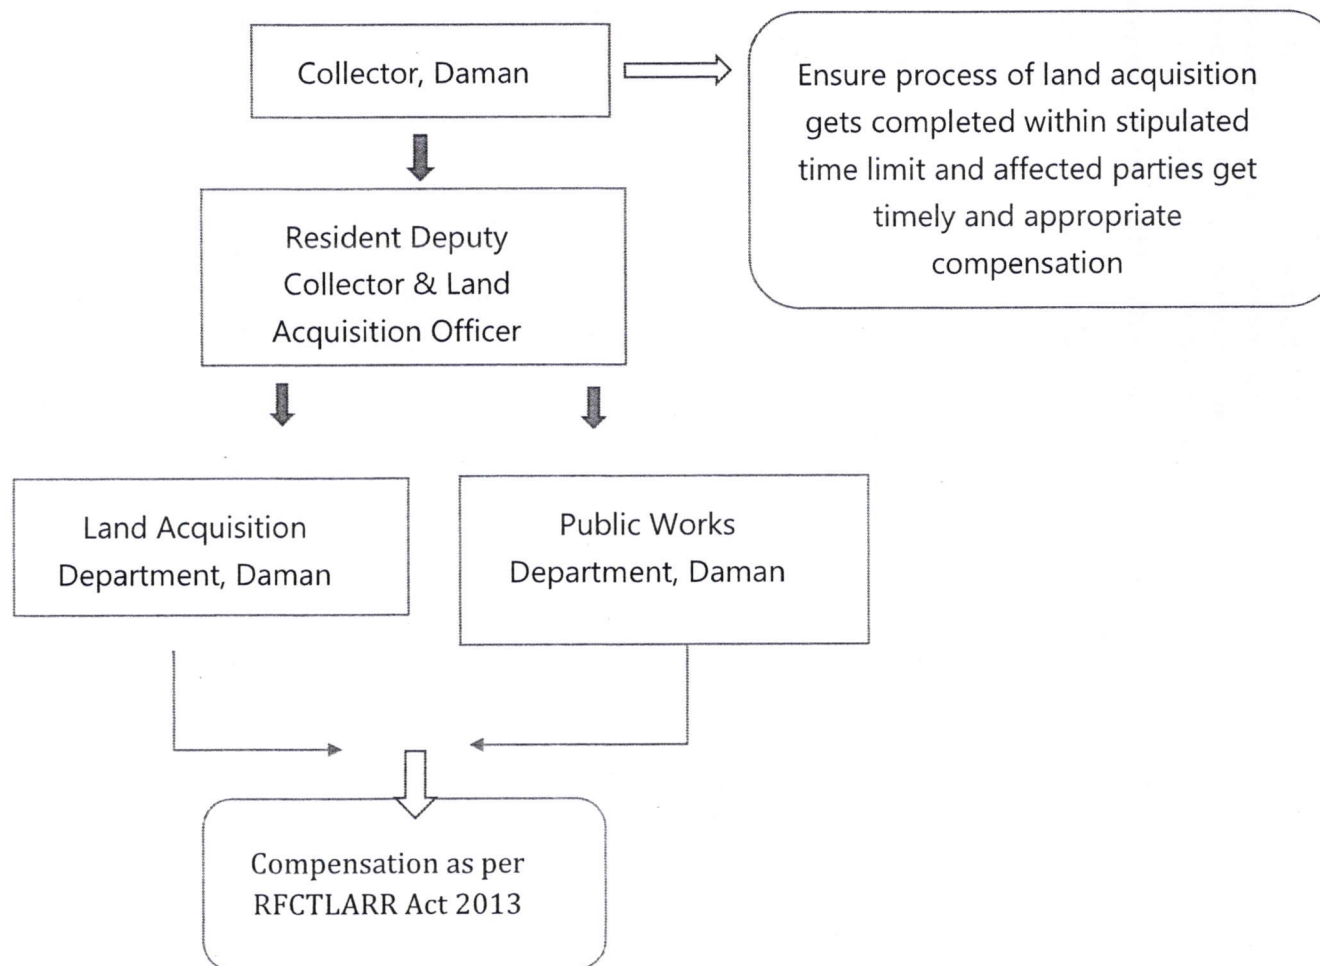

Office Suppression and Dividend Circle Rate provided by Common Under the Goa, Daman & Diu Land Revenue Code 1968 and amendments to the declarations and laws relating thereto to others as well as the provisions of that area as well as surveyed land values and the laws of the Central Government (RFCTLARR ACT, 2013) will have to be paid accordingly. For this project, receivable compensation for loss of land and affected structures as per RFCTLARR Act 2013 is shown in **Table 8** below

Table 8 Compensation as per Act

Sr. No	Type of loss	Receivable compensation (compensation and reinstatement and rehabilitation)
1.	Loss of Land	Land compensation payment - According to the provisions of the RFCTLARR Act 2013, due compensation and rehabilitation of land acquisition, rectification and transparency According to the law, two times the market rate (2X in rural area and 1X in urban area). In addition, 100% compensation relief of the above amount as Solatium
2.	Loss of Land	The amount of stamp duty on land or house purchased by the affected families will be reimbursed. The land for house allotted to the affected families will be free from all encumbrances The allotted house or land will be in the joint name of husband and wife.
3.	Assistance to Project Affected Families	The appropriate Government shall ensure that the affected families are provided with the following options: (A or B or C) (A) Where jobs are created through the project, after providing suitable training and skill development, employment at a rate not lower than the minimum wages to at least one member per affected family in the project or arrangement for a job in another project (B) One-time assistance of Rs. 5 lakhs per affected family (C) Annuity policies that pay not less than Rs. 2000/- per month per family for 20 years with appropriate indexation to the Consumer Price Index for agricultural labourers <ul style="list-style-type: none"> ➤ Each affected family displaced from acquired land will be given a monthly subsistence allowance equivalent to Rs. 3000/- per month for a period of 1 year from the date of award. ➤ Each affected family which is displaced will get a one-time financial assistance of Rs. 50,000/- as transportation cost for shifting of family, building materials, belongings and cattle. ➤ Each affected family having cattle or a petty shop will get one-time financial assistance of a minimum of Rs. 25,000/- for construction of cattle shed or petty shop. ➤ Each affected family of an artisan, small trader or self-employed person or an affected family which owned non-agricultural land or commercial, industrial or institutional structure in the affected area, and who has been involuntarily displaced from the affected area due to land acquisition, will get one-time financial assistance of a minimum of Rs. 25,000/-.
4.	Resettlement allowance	Each affected family will be given a one-time "Resettlement Allowance" of Rs. 50,000/- only.
5.	Provision of house in case of displacement	(I) If a house is lost in rural areas, a constructed house will be provided as per the Indira Awas Yojana (IAY) specifications. If a house is lost in urban areas, a constructed house will be provided, which will be not less than 50 sq. mts in plinth area.

		<p>(2) The benefits listed above will also be extended to any affected family which is without homestead land and which has been residing in the area continuously for a period of not less than 3 years preceding the date of notification of the affected area and which has been involuntarily displaced from such area.</p> <p>(3) If any affected family in urban areas opts not to take the house offered, it will get a one-time financial assistance for house construction, which will not be less than Rs. 1,50,000/-. If any affected family in rural areas so prefers, the equivalent cost of the house will be offered in lieu of the constructed house.</p> <p>(4) No family affected by acquisition will be given more than one house under the provisions of this Act.</p>
