The Deputy Secretary (Revenue),
Daman.

Sub:- Regarding submission of SIA Report for Acquisition of
Land for construction of Road for construction of Main Balance Reservoir (MBR) at Dunetha.

Madam,

With reference to the subject cited above, it is to inform you that vide Notification No.3/19/2017/LQN/MBR/-PWD/2017-18/ dated-17/11/2017, a committee was constituted to prepare SIA Report for Acquisition of Land for construction of Main Balance Reservoir (MBR) at Dunetha

In this connection, SIA Report is prepared by the committee, which is enclosed herewith for kind information and necessary action please.

Encl:- As above

Copy to:

The Collector, Daman for kind information please.
Appraisal Report of the Expert Committee on Review of the SIA And SIMP Report for Land Acquisition for construction of Main Balance Reservoir (MBR) at Dunetha, Nani Daman.

Dated: 17 /04/2018

The U. T. Administration of Daman & Diu has constituted an expert committee with an independent multidisciplinary Expert Group of members for appraisal of social Impact Assessment report and Social Impact Management Plan for acquisition of land for construction of Main Balance Reservoir (MBR) at Dunetha. The expert group consists of the following officials /Non officials.

The expert Group constituted under sub-section (1) of section 7 of the Act has evaluated the Social Impact Assessment report and made its recommendations. The following are point of the appraisal committee on the SIA/SIMP report of Land Acquisition of land for construction of Main Balance Reservoir (MBR) at Village- Dunetha.

It was observed that the SIA and SIMP report for Land Acquisition of land for construction of Main Balance Reservoir (MBR) at Village- Dunetha is prepared by the Social Impact Assessment Team that the acquisition of land and property have been necessitated for construction of Main Balance Reservoir (MBR) at Village- Dunetha to provide water of good quality and in adequate quantity.

Main Balance Reservoir (MBR) will be more beneficial to local public as well as Industries and Hotels etc. With the help of this Main Balance Reservoir (MBR) shortage of water will be resolved. Quality and quantity of water shall also improve.

The land from Village- Dunetha, Nani Daman for the said project is proposed to be acquired as per the RFCTLARR, Act 2013, and the project involves acquisition of land upto the extent of 650 Sq. Mt. of the land bearing Survey No. 165/3.
The report says that, "estimated only 01 (One) Private land is being affected."

This report provides the information of the affected assets/land. This helps in working out the entitlements, compensation packages etc.

**Recommendations and Observations of the Committee:**

The committee members have elaborately discussed on the SIA report submitted by the Social Impact Assessment Committee and recommended the following:

1. The project is proposed for public purpose.
2. The land owner requested vide his application dated 17/02/2018 to consider compensation with interest w.e.f. 08/07/2015, so the Committee requests the District Administration to provide optimum compensation to the land owner as per the Act.

The SIA report is quite comprehensive and would act as a reference point for project action. The above details will also be helpful to the Affected Persons to cross check their details when the SIA & SMP report are made available to them in local language.

The U. T. Administration may take a decision on above recommendation.

Shri Krishankumar

Shri Harshit Jain

Shri S.D. Bharadwaj

Shri Avinash Chaudhary

Smt. Savitaben Bharatbhai Patel

Smt. Hemlataben Ishwarbhai Patel

Shri Sanjeev Pandya

RECOMMENDATION
1. Executive Summary

India is one of the fastest growing economy and is witnessing rapid scale of industrialization and burgeoning population, which are putting coercion the water availability in the nation. The economic and population growth in the country are slowing down per capita availability of water and the situation is expected to worsen in the coming years due to limited availability of fresh water resources. If the water utilization is to continue at the same rate, the water demand for domestic, agriculture and manufacturing sector is expected to outpace the water supply by 2050. Its requirement of the U.T. Administration to construct Main Balance Reservoir (MBR) at Village-Dunetha of Daman District to make easier and sufficient water supply for general public of Daman District.

1.1 Population Data and purpose of the SIA

As per 2011 Census Total Population of Daman District is as under:

<p>| | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Rural</td>
<td>146891</td>
<td>76.84%</td>

<td>100%</td>
</tr>
</tbody>
</table>

Daman is situated on the west coast of India and Daman is Industrial Hub and famous Tourist spot, so that there is a requirement of construction of Main Balance Reservoir (MBR) to supply water to the local people in sufficient quantity.

Thus it is proposed to construct Main Balance Reservoir (MBR) at Village-Dunetha, Nani Daman in Daman District. For this purpose, land needs to be acquired and land acquisition is being carried out as per provisions of RFCTLARR Act, 2013. As per the RFCTLARR Act, 2013 a social impact assessment is required to carry out...
before initiating land acquisition notification under section 11 of this act. One of the objectives of Social Impact assessment is to examine the proposed project is a public purpose project.

1.2 Basic detail of area to be acquired

To construct Main Balance Reservoir (MBR) at Village- Dunetha, Nani Daman in Daman District for which the below mentioned land is required to be acquire.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Land to be acquired for construction of Main Balance Reservoir (MBR) at Village - Dunetha in Daman District as per SIA Survey is 650 Sq. Mts. The proposed acquisition of land is used for Non-Agricultural purposes.

The proposed acquisition is required for many reasons. Firstly, it will improve the supply system of drinking water in the District. Secondly it will manage Industrial, Medical and household usage which is basic need of the District in present scenario.

1.3 Extent of Land Acquisition

1.4 Social Impact Management Plan (SIMP)

The Social Impact Management Plan (SIMP) is necessary to address the negative impacts of land acquisition. Social Impact Management Plan (SIMP) consists of a set of institutional measures to be taken during the design, construction and operational phase of the project to eliminate adverse social impacts, to offset them to acceptable levels. The main aim of the SIMP is to ensure that the various adverse impacts are mitigated and the positive impacts are enhanced.

### Table-4

<table>
<thead>
<tr>
<th>Impacts</th>
<th>Mitigation Measures</th>
</tr>
</thead>
<tbody>
<tr>
<td>Loss of Non-Agriculture land</td>
<td>Compensation according to RFCTLARR Act 2013</td>
</tr>
</tbody>
</table>

1.5 Social Economic impact of the project

The social costs by comparing the positive and negative impacts have been discussed below:

### Table-5

<table>
<thead>
<tr>
<th>Positive Impacts</th>
<th>Negative Impacts</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>(i.) Improvement in water supply system in Daman District.</td>
<td>(i) Difficulties in finding land elsewhere as Daman being a small area</td>
<td>After careful examination of various parameters of cost and benefit (positive &amp; negative), it is found that the proposed construction of Main Balance Reservoir (MBR) at Village-Dunetha in Daman District would benefit the local community at large</td>
</tr>
<tr>
<td>(ii.) It will be helpful to provide a safe and reliable water source.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

On the whole, it is concluded that the process of land acquisition has both positive as well as adverse impacts. But the positive impacts of this project outweigh the
negative ones. Keeping overall scenario in view, it is found that the construction of Main Balance Reservoir (MBR) at Village- Dunetha in Daman District would benefit local community and society at large.
2.0 CHAPTER-1

2.1 Introduction:-

Daman District is Industrial Hub as well as famous Tourist Spot and it is also a historical city having its own specific culture and significance. Various tourists constantly visit Daman to soak in the cultural fragrance of incredible Daman. It is requirement of the U.T. Administration to construct Main Balance Reservoir (MBR) at Village- Dunetha in Daman District to fulfill the requirement of water for industrial as well as household need.

Proposed construction of Main Balance Reservoir (MBR) at Village- Dunetha in Daman District desires to take care of all the aforesaid issues as start a new era of development of region and wellbeing of people of the region.

2.2 Background of SIA

Social Impact Assessment (SIA) includes the processes of analyzing, monitoring and managing the intended and unintended social consequences, both positive and negative, of planned interventions and any social change processes invoked by those interventions. The most important outcome of SIA is to develop mitigation plans to overcome the potential negative impacts on individuals and communities and the society at large. SIA has now become an integral part of project preparation process. The Right to Fair Compensation and Transparency in Land Acquisition and Resettlement and Rehabilitation Act 2013, (RFCTLARR Act, 2013) that replaced the “Land Acquisition Act (LAA), 1894”, requires a mandatory SIA as a prelude to all projects’ requiring land acquisition. It also specifies an elaborate process for the conduct of the SIA study and its evaluation through the Expert Group”. The Expert Group will assess the impact of the project on various things such as land, transport, housing, lives of people, their occupations, their ownership, their economic conditions, physical infrastructures (drainage, roads, water availability, sanitation etc.) and many other things.
2.3 MAP SHOWING LAND ACQUISITION PROPOSAL
The acquisition of land is the core issue of this process which may put multi-facet impact on the society.

2.4 Objectives

Social Impact Assessment is carried out in accordance with the provision of section 4 of the RFCTLARR Act, 2013. The SIA assessed socio-economic impacts of the proposed acquisition based on information collected from primary and secondary sources. The SIA study focused on the following objectives:

1> To assess whether the proposed acquisition serves public purpose.
2> To estimate the number of affected families and number of families among them likely to be displaced.
3> To understand the extent of land acquired is bare minimum needed for the project.
4> To study the social impacts, nature and cost of addressing them and to overview the impact of these costs on the overall cost of the project vis-à-vis the benefit of the project.
5> To understand the extent of land (public and private), houses, settlement and other common properties likely to be affected by the proposed acquisition.

2.5 Indicative Methodology of Conducting SIA

The indicative methodology to study above mentioned aspects of SIA is briefly presented in Table-6:

<table>
<thead>
<tr>
<th>Sr. No.</th>
<th>Aspects of SIA</th>
<th>Description of Methodology</th>
<th>Source</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Assess whether the proposed acquisition serves public purpose.</td>
<td>Details given in 1.2</td>
<td>RFCTLARR Act 2013</td>
</tr>
<tr>
<td>2.</td>
<td>Understand the extent of land (public and private), houses, settlement and other common properties likely to be affected by</td>
<td>Ownership details of the land and type of land to be acquired, enumeration of affected</td>
<td>Field study</td>
</tr>
</tbody>
</table>
The social assessment of the project has been carried out as per requirement of RFC TLARR Act, 2013. The details of methodologies include:

(i) Socio-Economic Field Survey: In order to study the impacts of land acquisition, a socio-economic survey was carried out. The data was collected through structured schedule from respondents through personal interviews.

(ii) Stakeholder’s Consultation and Public hearing: Consultations with stakeholder was carried out at individual and village level regarding likely impacts of land acquisition on the livelihood of the people and society.

2.6 Justification of Public Purpose

One of the Objectives of the Social Impact Assessment is to examine the nature of the proposed project, whether it is a public purpose project or not. The proposed land acquisition is for construction of Main Balance Reservoir (MBR) at Village- Dunetha in Daman District.

(i) Improvement in water supply system in Daman District.

(ii) It will be helpful to provide a safe and reliable water source.

Keeping in the view the above issues, it is in the public interest to acquire the land for construction of Main Balance Reservoir (MBR) at Village- Dunetha in Daman District.
CHAPTER - 2

3.0 ESTIMATION AND ENUMERATION OF AFFECTED FAMILIES

The present study was undertaken to assess social impact of land acquisition, in Dunetha, Nani Daman. The SIA survey was conducted in the village- Dunetha as per the guidelines of Government of India.

3.1 Study Area

The Social and economic indicators of the Village- Dunetha from which land is to be acquired are given in Table-7. Total population of the affected village has been given in Table below which was 12,470 in Dunetha comprising of 60.70 percent males and 39.30 percent females. The overall literacy rate is 76.89 percent in Dunetha. The data shows that schedule caste population in the Village is 3.75 percent of the total population.

</table>
It was found that the land parcel which is proposed to be acquired belong to the residents of Dunetha, Nani Daman. There is no home stand on the land proposed for acquisition. This land is utilizing for Non-Agricultural purpose.

3.2 Socio Economic Characteristics

1. Agriculture:
It was found that the land parcel which is proposed to be acquired belong to the residents of Dunetha, Nani Daman. There is no home stand on the land proposed for acquisition. This land is utilizing for Non-Agricultural purpose.
3.2 Socio Economic Characteristics

1. **Agriculture:**
   
   In earlier 1990's Agriculture was the main activity for livelihood of people. After Industrial Policy declared by GOI in 1991, many industrial sectors were established in Daman. Due to beauty of Daman, business related to Tourism established very well. As the result Agriculture activity decreased day by day. Most of the Agriculturist are marginal Agriculturist and people are also involved many other earning activities.

2. **Local Employment:**
   
   Daman is famous tourist place surrounded by South Gujarat and close to Maharashtra and Dadra Nagar & Haveli. There are many ancient monuments and beautiful Sea beaches in Daman which are attracts people very much. Due to this Hotel and Tourism Industry is well established in Daman and it is a major source of income for general people. Liquor Industries are also existing in the daman which is also providing employment to general people. Industries are more effective and well established employment generation sector in Daman. Local as well as Migrant people are also getting job opportunity.

3. **Kerosene Free U.T.**
   
   The U. T. of Daman & Diu is declared as KEROSENE FREE from 01/07/2017. vide Order No. 1/389/COL/CSD/DMN/FREESKO/2017-18/4817 dated-02/06/2017. Under Ujjwala Yojana total only 128 beneficiaries were found eligible for free Gas Cylinder connection in the U.T. till August,2017. It shows that economic level of people of Daman.

4. **Migrant Population:**
   
   Being Industrial hub, near about 50,000-60,000 migrant population is serving in Daman. Daman is providing livelihood to all the migrants and due to this economy of Daman is also up lifting day by day.
CHAPTER-3

4.0 LAND ASSESSMENT

4.1 Backgrou

As per provision of the Right to Fair Compensation and Transparency in Land Acquisition and Rehabilitation and Resettlement Act 2013, land acquisition for construction of Main Balance Reservoir (MBR) at Village- Dunetha in Daman District is being carried out. Following sections discuss the extent of land acquisition, steps involved in land acquisition process, status of affected land, determination of compensation and land acquisition schedule.

4.2 Extent of Land Acquisition

Total area for construction of Main Balance Reservoir (MBR) at Village-Dunetha in Daman District is presented in Table 3.1.

CHAPTER-4
5.0 APPROACH OF SIA

5.1 Consultation and Public Hearing

Consultative procedure has been a critical but important front in the entire social Impact Assessment process. This consultation framework will be continued during preparation of Social Impact Management Plan (SIMPs), which in turn, will develop strategies for community dialogues and their involvement in the project during implementation of the project. While social impact assessment ensured involvement of local communities through participatory planning, structured consultations and public hearing conducted at village to endorse important planning approaches and policies. Following section highlights the type of consultations, continued consultation in further project preparation.

5.2 Type of Consultation

➢ **Consultation during sample Survey Stage:** SIA at this stage included consultations at individual level, groups of local people and focused group discussions to understand acceptability’s of the project issues related to land acquisition. The overall objective of these consultations was to ensure that people participate willingly; they are allowed to express their concerns and opinions; and agreements are reached on their suggestion/preferences.

➢ **Public Hearing:** Public hearing was conducted as per provision of section 4(5) of RFCTLARR Act 2013. Besides general consultations as described above, consultations with specific objectives was conducted in this public hearing.

5.3 Finding of Consultation

Important issues of consultation at village level are related to compensation for lost land and properties. Important issues raised during these consultations are presented below (Table 14).

CHAPTER-5

6.0 SOCIO-ECONOMIC AND CULTURAL IMPACT OF LAND ACQUISITION AND SIMP

As per the guidelines of Government of India, the present study was undertaken to assess social impact of land acquisition. The present survey pertains to village Dunetha, Nani Daman of Daman District. There was 1 resident land owner in the affected area under survey.

6.1 Socio-economic Impact of Land Acquisition

1. **Level of Income:**
   
The land acquisition may impact positively on the level of income of general public. Daman is a Tourist place and due to cleanliness the number of Tourists may be increased. Most of the people are engaged with the livelihood related to tourism. It may boost positively to the Industries and due to this more people may get job opportunity. So, the income level may be increased in future.

2. **Standard of living:**
   
   Standard of living of the people may be improved due to more opportunity of jobs and self-employed works in Tourism and Industrial Sector. The income level may be increased and in the result people may get standard of living.

3. **Non-Farm Sector:**
   
   Non-Farm Sectors like Tourism, Industries, Medical and Health facilities may be positively increased. This facility may attract more and more people to Daman and local people may also get benefit from these sectors.

4. **Economic Growth:**
   
   More suitability of development of Tourism, Industries and Medical and Health facilities etc. sectors in Daman may affect the Economy of Daman. Due to this people may get more opportunities of jobs, employment related to above
sectors. All these factors may boost positively to the earning of the people of Daman and it will increase the level of Economy of Daman.

6.2 Impact on Livelihood and Environment

To study the impact of land acquisition on livelihood and environment of the affected areas, it is significant to analyze the current status of resource availability and its impact on the quality of livelihood environment.

a) Main factors influencing livelihood of the respondents

POSITIVE IMPACTS

(i.) Improvement in water supply system in Daman District.

(ii.) It will be helpful to provide a safe and reliable water source.

NEGATIVE IMPACTS

(i) Difficulties in finding land elsewhere as Daman being a small area.

6.3 Social Impact Management Plan (SIMP)

The Social Impact Management Plan (SIMP) is necessary to address the negative impacts of land acquisition. Social Impact Management Plan (SIMP) consists of a set of institutional measures to be taken during the design, construction and operational phase of the project to eliminate adverse social impacts, to offset them, to acceptable levels. The main aim of the SIMP is to ensure that the various adverse impacts are mitigated and the positive impacts are enhanced.
Analysis of Social Impact of Acquisition of land at Village-Dunetha, Nani Daman to construction of Main Balance Reservoir (MBR) at Village- Dunetha in Daman District.

CHAPTER-6

7.0 COMPENSATION, COSTS AND BENEFITS

Compensation is a basic element of SIA of Land acquisition. In this chapter, broader aspects of the compensation costs and benefits analysis will be discussed.

7.1 Determination of Compensation

As per provision 26 of RFCTLARR Act, 2013, the Land Acquisition Collector, Daman shall adopt following criteria to assess and determine the market value of land.

(a) Market value specified in the circle rates fixed by the U. T. Administration of Daman & Diu under Notification No.COL/DMN/LND/REVENUE/2012/308 dated 16/04/2015.

(b) The average sale price of similar type of land situated in the nearest village or nearest vicinity.

(c) The land owner requested to SIA Committee to consider compensation w.e.f. 08/07/2015 with interest as per the release deed.

7.2 Compensation of Land Acquisition

During the survey, an enquiry was made regarding the use of compensation amount by the respondent. As per the information the respondent showed interest in purchasing land for residential/commercial use with the compensation amount.
8.0 CONCLUSION OF SIA

Table-16

<tbody>
<tr>
<td>(i.) Improvement in water supply system in Daman District.</td>
<td>(i.) Difficulties in finding land elsewhere as Daman being a small area.</td>
<td>After careful examination of various parameters of cost and benefit (positive &amp; negative), it is found that the proposed construction of Main Balance Reservoir (MBR) at Village- Dunetha in Daman District would benefit the local community at large.</td>
</tr>
<tr>
<td>(ii.) It will be helpful to provide a safe and reliable water source.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

On the whole, it is concluded that the process of land acquisition has both positive as well as adverse impacts. But the positive impacts of this project outweigh the negative ones. Keeping overall scenario in view, it is found that the construction of Main Balance Reservoir (MBR) at Village- Dunetha in Daman District would benefit local community and society at large.
