अवलंबीत जन्म एवं मृत्यु पंजीकरण
Sub: Irregularities and corrupt practices in registration of birth and death and issuance of certificates thereof.

CIRCULAR

It is to bring to the notices of all the functionaries dealing with the registration of births and deaths that the registration of births and deaths are being done under the provision of the Registration of Births and Deaths Act, 1969 and the corresponding rules made thereunder. As per the provisions of Section 7 and 21 of the RBD Act, every birth (including still birth) and death are required to be registered by the concerned Registering Authorities which was occurred in his jurisdiction. Further, under the provision of Section 12 of the said Act, the Registrar is required to issue the relevant extract/certificate from the birth/death registers to the informant as soon as the registration is completed.

It is reported that despite the mandatory provisions of registration and issuance of extract of the certificate under the Act, it has been observed that public is facing problem in registering an event of birth and death and obtaining the desired birth/death certificate. It has been reported by the Ministry that several complaints/representations in respect of corrupt practices is being followed in the system of registration of births and deaths. It has also been reported that for getting birth or death certificates, bribes are paid to the registration functionaries.

In order to streamline the successful and citizen friendly civil registration system, all the Registrars are requested to take concrete efforts and take suitable steps to prevent the bribery under the existing system of registration of births and deaths and in issuance of extract/certificate so that the general public will not suffer in obtaining birth/death certificate within the stipulated time period. The administration will take strict action in the following cases against the defaulters.

1) Strict action will be taken against the person involved in any corrupt practices in the work of registration of births and deaths and issuances of certificates to the public. In extreme cases, legal action will also be considered.

2) A transparent system on registration of births and deaths should be placed, wherein time limit should be prescribed for registration (including delayed registration) and issuance of birth/death certificates.

3) The registration functionaries should not be kept at one place of posting for more than 3 years or as per the transfer policy guidelines issued by the Administration from time to time.

4) The penalties as prescribed under Section 23 (2) of the RBD Act shall be imposed on any Registrars or Sub Registrars who neglects or refuses, without any reasonable cause to register any birth or death occurring in his/her jurisdiction or not to submit any prescribed monthly return.

The above directions may be noted for strict compliance.
